

Implementing, Managing and Maintaining a Microsoft Windows Server 2003 Network Infrastructure

MCSA 70-291 Exam Preparation

Operating Systems • Durasi: **5 Hari** • Course Code: **OS-1205**

Deskripsi

Training ini membahas implementasi dan pengelolaan jaringan komputer berbasis domain dengan Microsoft Windows Server 2003, berikut setting dan konfigurasi serta proses maintainancenya. Training ini juga merupakan tahap persiapan untuk mengikuti ujian sertifikasi Microsoft track 70-291.

Tujuan Training

- ▶ Peserta dapat mengimplementasikan Windows Server 2003 dalam sebuah jaringan komputer berbasis domain.
- ▶ Peserta mengenal dasar-dasar pengelolaan serta maintenance infrastruktur jaringan berbasis domain dengan Windows Server 2003.
- ▶ Sebagai tahap persiapan untuk mengikuti ujian sertifikasi Microsoft track 70-291.

Prasyarat

- ▶ Telah mengikuti training OS-1203: Installing, Configuring and Administering Microsoft Windows XP Professional.
- ▶ Telah mengikuti training OS-1204: Managing and Maintaining a Microsoft Windows Server 2003 Environment.

Target Peserta

Pelajar, IT Staff, System Engineer, Network Administrator, Network Programmer, Umum.

Tinjauan Materi

- ▶ Allocating IP Addressing by Using Dynamic Host Configuration Protocol (DHCP).
- ▶ Managing and Monitoring Dynamic Host Configuration Protocol (DHCP).
- ▶ Resolving Names.
- ▶ Resolving Host Names by Using Domain Name System (DNS).
- ▶ Integrating Domain Name System and Active Directory.
- ▶ Managing and Monitoring Domain Name System (DNS).
- ▶ Resolving NetBIOS Names by Using Windows Internet Name Service (WINS).
- ▶ Configuring Routing by Using Routing and Remote Access.
- ▶ Securing Network Traffic by Using IPSec and Certificates.
- ▶ Configuring Network Access.
- ▶ Managing and Monitoring Network Access.

Training Lanjutan yang Disarankan

- ▶ OS-1206: Implementing and Managing Microsoft Exchange Server 2003
- ▶ OS-1207: Windows Vista Client Configuration
- ▶ OS-1208: Windows Server 2008 Configuring Active Directory
- ▶ OS-1209: Windows Server 2008 Configuring Network Infrastructure
- ▶ OS-1210: Windows 7 Client Configuration
- ▶ WP-1202: Microsoft Office SharePoint Server 2007
